COALFIRE[®]

Coalfire Federal is seeking cybersecurity professionals to support tactical and strategic initiatives with our Government customers.

Here are some of our desired skill sets and qualifications:

- Experience with incident response and vulnerability management
- Experience with Continuous Diagnostics and Mitigation (CDM)
- Ability to leverage CND-related toolsets to detect and respond to IT security incidents
- Experience with HBSS, Tenable/ACAS, Websense, Cyber Forensics, Cloud Computing, ICS/SCADA security, malware analysis, or Command Cyber Readiness Inspections
- Experience with Splunk
- Understanding of the NIST Risk Management Framework, Federal Information Security Modernization Act (FISMA), FedRAMP
- Active Top Secret clearance preferred
- IAT Level III Certification, including CISA, CISSP, or CASP
- CND-IR Certification, including GCIH, CSIH, or CEH
- Experience with penetration testing and certifications such as OSCP

Please RSVP and send your resume to
