

The Security to Succeed

COALFIRE AT A GLANCE

Deep experience

- 16 years in the cybersecurity business
- More than 1,400 government and commercial clients
- Strong partnerships with leading service providers, including Amazon Web Services, Microsoft®, VMware, Splunk, Palo Alto Networks, and Endgame)

Comprehensive approach

- A broad portfolio of cybersecurity solutions
- One of the largest, most advanced technical testing and simulation teams

Tech-enabled approach

- Cloud-based CoalfireOneSM enterprise risk and compliance platform, used by more than 800 clients

Industry- and client-focused innovators

- 95% of clients renew their contracts year after year
- 12 locations with more than 500 employees
- More than 40 industry certifications and affiliations
- Best practices gleaned from deep public sector experience, including work with the Department of Defense

A comprehensive risk management approach

Using a broad suite of cyber risk advisory, assessment, and technical testing services, we look at all aspects of our clients' environments to provide a complete picture of possible vulnerabilities, threats, and gaps that could impact their businesses. We then partner with our clients to select, design, and implement world-class cyber capabilities.

CYBER RISK ADVISORY SERVICES

- Identify areas and scope of business risks.
- Build a remediation plan through best practices.
- Reduce risk of noncompliance, business disruption, lost IP, and damaged reputations.
- Implement policy development, business continuity, incident response, vendor management, etc.

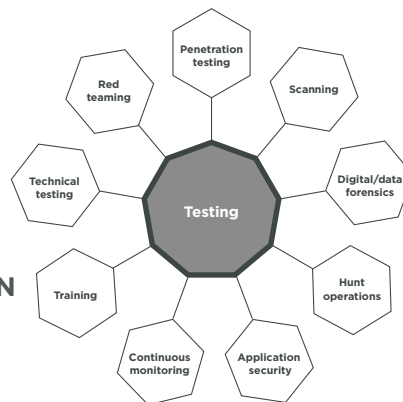

COMPLIANCE AND RISK ASSESSMENTS

- Obtain independent validation of IT controls to industry and government standards.
- Get an unbiased perspective into overall program effectiveness.
- Leverage compliance efforts as part of the roadmap to a more secure organization.

ADVERSARY EMULATION AND DETECTION

- Model and replicate sophisticated real-world attacks.
- Probe networks, applications, embedded devices, and people.
- Determine how best to manage and respond to critical incidents.

CYBER SOLUTION SELECTION, DESIGN, AND IMPLEMENTATION

- Create security architectures for cloud, virtualization, encryption, and other solutions.
- Assist with technology evaluations.
- Optimize security monitoring and analytics.
- Improve the overall security environment.

COALFIREONESM PLATFORM

- Get a single dashboard view of security controls, vulnerabilities, compliance, and risk ratings.
- Access self-assessment tools.
- Automate vulnerability scanning.
- Employ third-party and community information-sharing capabilities.

Trusted insight for navigating this complex cyber world

We stay ahead of technologies and mandates that impact cybersecurity. Regulatory organizations and leading companies count on us to help them understand the security concerns associated with:

- Cloud and virtualization
- Mobile security
- Point-to-point encryption (P2PE)
- EMV (Europay, MasterCard, and Visa) and contactless payments

CorporateOverview_02.0817

Reduce risk and simplify compliance with trusted insight from the cybersecurity experts.
