

Cybersecurity that fuels success

COALFIRE AT A GLANCE

Deep experience

- 17 years providing cybersecurity services
- Proven results enabling a wide range of government organizations (including 12 executive departments) to achieve their mission-specific cyber objectives
- The largest provider of cyber advisory and assessment services to the cloud service provider (CSP) market
- Active continuous diagnostics and mitigation (CDM) delivery program organization
- The leading FedRAMP Third Party Assessment Organization (3PAO) for CSPs

Industry- and client-focused innovators

- 95% of clients renew their contracts year after year
- 12 locations with more than 600 employees
- More than 40 industry certifications and affiliations
- Best practices gleaned from federal government and commercial past performance
- One of the largest, most advanced, and industry-recognized technical security testing and simulation teams
- A unique offering of security engineering services fueled by experts with top technical certifications and skills

A FULL SPECTRUM OF CYBERSECURITY SERVICES

Cyber Automation, Engineering, and Orchestration

- Design and optimize innovative, unique, and customized continuous monitoring solutions that provide risk situational awareness to various stakeholders and enable effective mitigation decisions.
- Provide technical security engineering and operational/program support for integrated, modernized systems that leverage cloud, mobility, and other solutions.

Security Compliance and Advisory

- Provide independent advice and validation of IT controls relative to industry and government standards, including FedRAMP, PCI DSS, HITRUST, HIPAA/HITECH, FISMA, DIACAP/DoD RMF, NIST RMF, and SOC.

Cyber Program Management and Operations

- Provide cyber subject matter expertise to fulfill management and operational mission objectives.
- Employ CMMI and ISO standards and methodologies to streamline repeatable cyber processes and procedures.

Technical Security Assessments

- Model and replicate sophisticated real-world attacks to assess cyber capabilities, leveraging a broad range of techniques, including offensive testing, penetration testing, vulnerability scanning, red teaming, and hunt operations.
- Train and enable your organization to determine how best to manage and respond to critical incidents.

CERTIFIED TECHNICAL EXPERTS IN LEADING CLOUD, ENCRYPTION, VIRTUALIZATION, AND CONTINUOUS MONITORING SOLUTIONS

WE SERVE A WIDE RANGE OF CLIENTS AND MISSION AREAS:

	Cyber Automation, Engineering, and Orchestration	Security Compliance and Advisory	Technical Security Assessments	Cyber Program Management and Operations
