

## CoalfireOne<sup>SM</sup>

A COMPLETE VIEW INTO  
YOUR COALFIRE ASSESSMENTS

CoalfireOne<sup>SM</sup> delivers the technology and insight to help you simplify compliance and reduce risks. Announcing CoalfireOne, the suite of tools by Coalfire, designed to empower your enterprise. The easy-to-use and secure CoalfireOne platform contains advanced features that make managing your risk and compliance program much easier.

CoalfireOne is more than a repository for your projects; it's a hub for visualizing and tracking vital information pertaining to project history, risk, and compliance status. With built-in workflow, managing ownership between your enterprise and Coalfire is easy. Each project stores documents and evidence, and you can track progress and receive timely prompts for requested information. You can also access guidance and communicate with your project users and the Coalfire team. Receive tailored risk and threat information. Track trends year-over-year and better prepare for your next project.

### The CoalfireOne advantage

CoalfireOne stores all project-related information, consolidating assessment activities into a central location. Schedules, progress, action items, risks, and constraints are presented on project dashboards for real-time status. With support for many types of assessments, CoalfireOne helps customers of any size

and complexity. Whether your company requires a simple self-assessment questionnaire or a complete attestation of compliance, CoalfireOne provides the tools and expertise to simply your projects.

Additionally, CoalfireOne has a suite of self-service and full-service scanning offerings that will help you simplify your vulnerability management and compliance requirements. These scanning services support a wide range of internal and external scanning templates and are PCI ASV certified. Whether you need a tool to help you scan or a dedicated team to help manage and scan your environment, the CoalfireOne Scanning Services Team can help.

You can either self-manage your scanning configurations or have our dedicated CoalfireOne Scanning Services Team manage it for you. Once configured, the scanning dashboard provides results for each scan and produces scan reports that can be used as evidence in CoalfireOne projects or downloaded for use in your own workflow.

### Efficient project delivery on CoalfireOne

By streamlining communication between you and your assessor, CoalfireOne improves the overall assessment experience and eases the frustration that can come with understanding and managing compliance.
