

## COALFIRE FEDERAL WINS US PATENT OFFICE CYBER CONTRACT

*In Partnership with Jacobs, Team Will Manage and Improve Enterprise Strategy*

**WASHINGTON, DC – July 28, 2020** – Coalfire Federal, a pure-play government cybersecurity advisory services and assessment firm, today announced it has been awarded the United States Patent and Trademark Office cybersecurity support services contract. The 3-year, \$29 million agreement covers all systems within the USPTO enterprise IT environment.

In partnership with global technology services firm Jacobs (NYSE: J), the Coalfire Federal team will focus on managing and improving the USPTO's organizational cybersecurity performance, particularly in the areas of penetration testing and FedRAMP critical to the USPTO mission.

"It's an honor and tremendous opportunity to provide cybersecurity services to the USPTO," said Coalfire Federal President Bill Malone, who was recently named a top cybersecurity executive to watch by *WashingtonExec*. "Our mission-critical focus and collaborative approach will support USPTO's efforts in securing information systems and protecting US intellectual property rights, a critical component of American economic success. We look forward to working with Jacobs and supporting the USPTO cybersecurity strategy."

The team will also provide risk management framework, technical and administrative support, continuous monitoring, vulnerability assessment, threat analytics, and security engineering for the USPTO workforce.

### **About Coalfire Federal**

Coalfire Federal, a wholly owned subsidiary of Coalfire Systems, is a U.S. company with offices in Reston, Virginia, and Columbia, Maryland. Coalfire Federal has nearly 20 years' experience providing cybersecurity services to a wide range of government organizations enabling and protecting their mission-specific cyber objectives.
